

Alpaca - Take Home Assignment for Product Interview

1. Please walk us through what your biggest achievement as a product manager is. Make sure to describe specific instances and decisions you made which aligns with principles you follow.

2. Linked is a dataset ([PM Interview Data](#)) which represents Alpaca's monthly B2C revenue broken down by various components on a per user basis. Assume this reflects the core B2C business you will be working on.
 - Please summarize the major trends you observe and the key components identified. Some questions to guide your analysis:
 - Are there any changes in the contributing factors? If so, how would you explain them?
 - Are there any significantly volatile components?
 - Can you spot any correlation/relationship between streams?
 - Based on your analysis please propose 2-3 actionable recommendations for growing this business. Make sure to explain:
 - Specific opportunity identified
 - Proposed action
 - Expected impact and how success would be measured
 - Any assumptions you're making
 - Are there any limitations of this dataset? What additional data would you've liked to have had access to?
